## **A cryptocurrency on the Polygon Chain**

**PLEASE READ THIS SECTION CAREFULLY. IF YOU ARE IN ANY DOUBT AS TO THE ACTION YOU SHOULD TAKE, YOU ARE ADVISED TO CONSULT YOUR LEGAL, FINANCIAL, TAX, OR OTHER PROFESSIONAL ADVISOR(S).**

This paper is for information purposes only and in no part is intended to create or imply a legal relationship, fiduciary relationship, or any other advisory relationship between a recipient or reader of this paper and SALVAcoin (SALC), Salvatara Inc., Salvatara Group, or any other company noted herein. While we strive to provide accurate elements and up-to-date information, the information contained herein may not be exhaustive, nor does this material constitute professional advice. SALC and Salvatara Inc. do not warrant or accept any legal liability or responsibility, timeliness, or completeness of any information in this document. Contributors and potential SALC sponsors must seek appropriate independent professional advice before relying on any material or transaction published in this document for which material is published for reference only. This document does not constitute a prospectus or an offer of any kind and does not imply that it is an offer of securities, solicitation, or an application for investment in securities in any jurisdiction whatsoever.

There is no guarantee of success for any project or revenue generation. No warranties or representations are made as to the successful development or implementation of any projects, technologies, innovations, or achievements of any activities noted herein or in any derivative document. Contributing to a cryptocurrency may not be suitable for everyone. Any person considering making a contribution to this ICO is encouraged to conduct their own due diligence and consult with their own professional advisor(s) (such as a financial advisor, investment advisor, tax advisor, consultant, or attorney) beforehand, as contributions and sponsorships will not be refunded. The information contained herein and any other related information does not take into account the objectives, financial situation, or needs of any particular contributor, and each contributor should consider whether their contribution is appropriate for their own situation.

### **ELIGIBILITY**

You are not eligible, and you are not to purchase any SALC coins if you are a citizen or resident of a geographical area in which access to or ownership of the SALC coin is prohibited by applicable law, decree, regulation, treaty, administrative act, or any other law, regulation, or rule within your jurisdiction.

## **FORWARD-LOOKING STATEMENTS**

Some of the statements in the Whitepaper include forward-looking statements which reflect the Company's and/or the Management's current views with respect to product developments, execution roadmap, financial performance, business strategy, and future plans, both with respect to the Company and the sectors and industries in which the Company operates. Statements which include the words "expects", "intends", "plans", "believes", "projects", "anticipates", "will", "targets", "aims", "would", "could", "should", "continue", "pending", and similar expressions are of a future or forward-looking nature. All forward-looking statements address matters that involve risks and uncertainties. Accordingly, there are, or will be, important factors that could cause the actual results to differ materially from those indicated in these statements. These factors may not be specifically described in the Whitepaper, but risks and facts should be considered in conjunction with the cautionary statements that have been included in the Whitepaper.

All subsequent written and oral forward-looking statements attributable to the Company or individuals acting on behalf of the Company are expressly qualified in their entirety by this paragraph. Prospective buyers of the SALC coin should specifically consider the risk factors which could cause actual results to differ before making a decision to contribute or sponsor the coin sale and the future of the coin. No statement in the Whitepaper is intended as a profit forecast and no statement in this Whitepaper should be interpreted to imply or reflect any earnings of the Company or another company mentioned herein for the current or future years. By contributing or investing in the SALC, you hereby acknowledge that you have read and understand these notices and disclaimers and have considered the risks set out above.

## **ABSTRACT**

The SALVAcoin team, in conjunction with Salvatara Inc., is applying Blockchain technologies to bring about the decentralization of a global economy system, by building a crypto economy around SALVAcoin; thus, making SALVAcoin the ultimate Utility coin. SALVAcoin is a smart-contract governed ecosystem that focuses on creating digitized currency, and their holders have the privileges and value of ownership in a multinational hemp and cannabis company. This technology eliminates costs associated with the once unavoidable or unnecessary intermediaries in all the focused sectors (which are discussed in other sections of this Whitepaper), providing transparency and liquidity, alleviating tax inefficiencies, and easing cross-border transactions under a unified platform.

## **EXECUTIVE SUMMARY**

SALVAcoin is a new digital currency that applies blockchain technology to the enormous crypto economy and lowers traditional barriers in order to achieve decentralization of the new age technology. This technology offers an effective method of harnessing the value of the existing 800+ Billion USD equivalent in cryptocurrency. Backed by the business endeavours of Salvatara Inc., SALVAcoin's real-life value is directly attached to their projects like SALVA.shop, SALVANFT, SALVAgrow and SALVAorg, thereby giving greater access to the global world to this new cryptocurrency.

## **SALVATARA INC.**

The word SALVA means 'to save' in Spanish. We at Salvatara believe in our name. From helping the disadvantaged receive free medicine to donating to indigenous communities in Colombia. SALVAcoin has an outstanding team of founders, professionals, and consultants who have contributed to the creation of this novel, real, value-based crypto economy. Salvatara Inc. continues to seek and expand its team and product in other countries.

## **SALVAcoin**

SALVAcoin is a Cryptocurrency on the Polygon Blockchain. SALVAcoin/SALC costed 1 MATIC during the ICO. The ICO was open for 31 days. There were 2 million coins available for purchase during the ICO. ICO was a huge success one year ago. There are 10 million Salva Coins in total that can ever be minted. Now, we are bringing it back to the market for all the people and this time it is available till the coin lasts. Again, we are keeping 2 million coins available to be purchased exclusively from our website Salvacoin.com

## **Functions of SALVAcoin**

SALVAcoin performs two essential functions:

1. **Investment Asset:** SALC is a limited release cryptocurrency that pays a dividend tied to SALVAshop sales and gives holders the right to vote in some company decisions. Holders of SALC can hold or sell based on the fluctuations of company and SALC value. SALC facilitates this by offering trading of SALVAcoin on SALVAcoin.com and soon to be listed on other major exchanges.
2. **Currency for SALVA Platforms:** SALC is the preferred currency on all SALVA platforms to buy products on SALVAshop, trade crypto/NFTs and receive dividends on behalf of SALVAcoin, donate to SALVAorg Non-Profit, buy SALVAgrow plants, and receive Affiliate commissions on SALVAnet. You will see on each SALVA platform that you have the option to use your SALC in transactions in the near future. Salvatara Inc. is planning to launch its very own NFT Marketplace, where you can use SALC coin to sell and buy NFTs using the same token. You will receive inside company information and private updates that only shareholders receive, you will receive polls in company decisions and every quarter a dividend disbursement from SALVATARA international.

To get started with SALVAcoin, all you need to do is sign up for an account on the official website and buy SALVAcoin now.

## TOKENOMICS

Token Name: "SalvaCoin"

Token Symbol: "SALC"

Total Supply: 2000000( 2Million)

Price of a SALC token: 1 Matic

Duration: While supplies last

## CRYPTOCURRENCY OVERVIEW

Cryptocurrency is a digital or virtual currency that uses cryptography for security. It operates independently of a central bank and is decentralized, meaning it is not controlled by any single entity. Instead of relying on a central authority to validate transactions, cryptocurrencies use a network of computers to validate and record transactions in a public ledger called a blockchain. The blockchain is a secure and transparent record of all transactions made using a particular cryptocurrency.

Some popular cryptocurrencies include Bitcoin, Ethereum, and Litecoin. They can be bought and sold on various online exchanges and can also be used to make purchases online or in-person. Cryptocurrencies are created through a process called mining. This is when individuals or groups of people use powerful computers to solve complex mathematical problems. When these problems are solved, new units of the cryptocurrency are created and added to the blockchain.

One of the main advantages of cryptocurrency is that it offers a high level of security. Because it operates independently of a central authority, there is no central point of failure that can be exploited by hackers. Transactions made using cryptocurrencies are also secure due to the use of complex cryptography. Another advantage is that cryptocurrency transactions are usually fast and inexpensive compared to traditional methods of payment, such as wire transfers or credit card transactions. This is because there are no intermediaries involved, such as banks, to slow down the process.

Despite the risks, cryptocurrencies continue to gain popularity and acceptance. As the technology matures and regulatory frameworks become clearer, it is possible that cryptocurrencies will become more widely accepted and used in the future. The potential for high returns, combined with the benefits of decentralization, security, and efficiency, makes cryptocurrencies an attractive investment for many individuals and institutions.

## Why Coin Sale?

SALVATARA Inc. aims to democratise access to the world of legal international commerce, allowing the average individual investor to trade and profit in a safe and secure way that is usually only accessible to the wealthiest and most connected. In a world where significant capital is typically required to participate in the industry, SALVAcoin provides the tools and

resources for individuals to start with minimal investment and earn like hedge funds and multinational corporations.

SALVAcoin does this by allowing participants to become stakeholders in legal cannabis operations in Costa Rica, Colombia, the USA, and Europe. Each SALVAcoin holder owns a piece of these operations and can trade or hold their investment as they see fit.

## **SALVAcoin ECOSYSTEM**

The SALVAcoin ecosystem is designed to provide a comprehensive and integrated platform for various activities within the cannabis industry. Here are some of the key components:

1. **SALVAshop:** An online marketplace where users can purchase cannabis products using SALVAcoin. The platform offers a wide range of products, including medical and recreational cannabis, accessories, and more.
2. **SALVAgrow:** A platform for purchasing and investing in cannabis plants. Users can buy plants, monitor their growth, and earn returns on their investments.
3. **SALVANFT:** A NFT marketplace that let you trade your NFT and purchase from other creators or artists as well through a secured smart contract.
4. **SALVAorg:** A non-profit organization that focuses on providing free medicine to disadvantaged individuals and supporting indigenous communities in Colombia. Donations can be made using SALVAcoin.

## **TECHNICAL OVERVIEW**

SALVAcoin is built on the Polygon blockchain, which provides several advantages, including:

1. **Scalability:** Polygon's architecture allows for high throughput and low transaction costs, making it suitable for large-scale applications.
2. **Interoperability:** Polygon supports the transfer of assets between different blockchains, enabling seamless integration with other platforms and networks.
3. **Security:** Polygon uses a combination of Proof-of-Stake (PoS) and Plasma framework to ensure the security and integrity of the network.

## **SALVAcoin SMART CONTRACTS**

Smart contracts are self-executing contracts with the terms of the agreement directly written into code. SALVAcoin leverages smart contracts to automate and enforce various processes within its ecosystem, such as:

1. **Token Issuance:** The creation and distribution of SALVAcoins started during the ICO and continued now as post-ICO phase.
2. **Dividend Distribution:** Automated distribution of dividends to SALVAcoin holders based on their holdings and the performance of SALVAshop.
3. **Governance:** Enabling SALVAcoin holders to participate in decision-making processes through voting mechanisms.

## USE CASES

SALVAcoin has several use cases that enhance its value proposition:

1. **Investment:** SALVAcoin provides an opportunity for investors to gain exposure to the growing cannabis industry. The coin is backed by real assets and business operations, offering potential returns through dividends and capital appreciation.
2. **Payments:** SALVAcoin can be used as a medium of exchange for purchasing products and services within the SALVA ecosystem and beyond.
3. **Voting and Governance:** SALVAcoin holders can participate in the governance of the ecosystem by voting on key decisions, such as product development, marketing strategies, and more.
4. **Donations:** SALVAcoin can be used to make donations to SALVAorg and other charitable initiatives supported by Salvatara Inc

## GOVERNANCE AND COMMUNITY ENGAGEMENT

### Governance Model

SALVAcoin's governance model is designed to empower coin holders by giving them a voice in the decision-making processes. The governance structure includes:

- **Voting Rights:** SALVAcoin holders can vote on key decisions related to the development and management of the SALVA ecosystem. This includes product development, marketing strategies, and other major initiatives.
- **Proposal Submission:** Community members can submit proposals for new projects or changes to existing ones. These proposals are reviewed and, if approved, put to a vote by the SALVAcoin community.
- **Transparency:** All governance activities are conducted transparently, with voting results and decisions publicly accessible on the blockchain.

## Community Engagement

- **Regular Updates:** SALVAcoin commits to keeping its community informed with regular updates on project developments, financial performance, and strategic plans. These updates are shared through multiple channels, including newsletters, social media, and community forums.
- **Community Events:** Salvatara Inc. will organise and participate in community events, including webinars, AMAs (Ask Me Anything) sessions, and conferences, to engage directly with SALVAcoin holders and gather feedback.
- **Rewards and Incentives:** Active community members are rewarded for their participation and contributions. This includes incentives for voting, proposing new initiatives, and participating in promotional activities.

## LEGAL AND REGULATORY COMPLIANCE

### Compliance Framework

SALVAcoin is committed to operating within the legal and regulatory frameworks of the jurisdictions in which it operates. The compliance framework includes:

- **Regulatory Monitoring:** Continuous monitoring of global regulatory developments to ensure SALVAcoin remains compliant with relevant laws and regulations.
- **Legal Counsel:** Engagement with legal experts to review and advise on compliance matters, ensuring all activities meet legal standards.
- **AML/KYC Policies:** Implementation of Anti-Money Laundering (AML) and Know Your Customer (KYC) policies to prevent illicit activities and ensure the integrity of the SALVAcoin ecosystem.

### Data Protection

- **User Privacy:** Commitment to protecting the privacy of SALVAcoin holders by adhering to data protection regulations, such as the General Data Protection Regulation (GDPR).
- **Secure Transactions:** Use of advanced encryption technologies to secure all transactions and protect user data from unauthorized access.

### Risk Management

- **Risk Assessment:** Regular assessment of potential risks associated with SALVAcoin operations, including market risks, regulatory risks, and technological risks.
- **Mitigation Strategies:** Development and implementation of strategies to mitigate identified risks, ensuring the stability and sustainability of the SALVAcoin ecosystem.

### Legal Disclaimers

- **Transparency:** Clear and comprehensive legal disclaimers are provided in all SALVAcoin communications to ensure users are fully informed about the risks and limitations associated with the cryptocurrency.
- **No Guarantee of Returns:** Acknowledgment that investing in SALVAcoin carries risks, and there are no guarantees of returns. Users are encouraged to conduct their own due diligence and seek professional advice before making investment decisions.

## CONCLUSION

Blockchain technology and cryptocurrency are revolutionizing the financial landscape by offering decentralized, secure, and transparent solutions for a myriad of industries. SALVAcoin leverages these advancements to create a robust ecosystem that integrates the global cannabis market with cutting-edge blockchain technology. As a smart-contract governed utility coin on the Polygon blockchain, SALVAcoin not only facilitates efficient transactions but also provides tangible value through its association with Salvatara Inc.'s diverse business ventures. By participating in the SALVAcoin ecosystem, investors gain exposure to a burgeoning market, enjoy potential dividends, and participate in governance decisions, all while benefiting from the enhanced security and transparency inherent in blockchain technology. The combination of these factors makes SALVAcoin a compelling investment opportunity for those looking to diversify their portfolio with a cryptocurrency backed by real-world assets and innovative business models.
